SUMMARY

I'm a front-end developer with almost 1 year of experience in building web application (ReactJS), with good knowledge of Reactive Programming.
I love learning new technologies and building valuable application that helps others with their work. Ability to work independently, but I'm considered a team-player because I like to help other and tend to work well within a group.

TECHNICAL SKILLS

- **Programming Languages:**
    - JavaScript
    - Nodejs (basic level)

- **Frameworks / Platforms:**
    - ReactJS
    - Redux
    - Styled-component, Bootstrap, SASS
    - RESTful API
    - VueJS (basic level)
    - Express, MongoDB, NoSQL (basic level)

- **Others:**
    - Can read Document and Requirements fast and efficiently.
    - Always has an urge in researching and learning ways to solve problems.

- **Foreign Languages:**
    - English (good listening, basic communication, reading)

- **Version Control:**

    - Teamwork
    - Highly adaptable

PERSONAL PROJECTS

- December 2020 – February 2021
    - **Project:** Tix clone (a clone of the Original Website Tix.vn)
    - **Position:** Front-end Developer
    - **Description:** An online movie ticket booking website. This is my graduation project at CyberSoft Academy first big project I've ever made since I got into this industry.
    - **Technologies Used:** ReactJS, Material UI, Styled-component, SASS
    - **Team Size:** 1
    - **Source:** https://github.com/voanhhieu10250/DuAnCuoiKhoaFE52.git

PARTIMES ACTIVITIES

- I love learning new technologies through Internet (Google and Youtube are my good friends). Now I'm planning on learning NextJS, this framework is pretty cool, good for SEO, being used by many big companies and more importantly I think SSR is the future of React.
- I just started learning Japanese (self-study), I hope one day I can become a bridge engineer.
- I read lots of books. And my favorite is "So Good They Can't Ignore You – Cal Newport"
